Contents

1 McCarroll, D., Autio, J., Keikkinen, O. & Koutaniemi, L.: Degree of rock surface weathering on fjell summits in northern Finland: implications for the thermal regime of the last ice sheet

8 Hammarlund, D. & Buchardt, B.: Composite stable isotope records from a Late Weichselian lacustrine sequence at Grænge, Lolland, Denmark: evidence of Allerød and Younger Dryas environments

23 Benn, D. I.: Subglacial and subaqueous processes near a glacier grounding line: sedimentological evidence from a former ice-damned lake, Achnasheen, Scotland

37 Croot, D. G. & Sims, P. C.: Early stages of till genesis: an example from Fanore, County Clare, Ireland

47 Snyder, J. A., Korsun, S. A. & Forman, S. L.: Post-glacial emergence and the Tapes transgression, north-central Kola Peninsula, Russia

57 Krüger, J.: Moraine ridges formed from subglacial frozen-on sediment slabs and their differentiation from push moraines

65 Knudsen, K. L., Conradsen, K., Heier-Nielsen, S. & Seidenkrantz, M.-S.: Palaeoenvironments in the Skagerrak–Kattegat basin in the eastern North Sea during the last deglaciation

79 Sohlenius, G.: Mineral magnetic properties of Late Weichselian–Holocene sediments from the northwestern Baltic Proper

89 Lubinski, D. J., Korsun, S., Polyak, L., Forman, S. L., Lehman, S. J., Herlihy, F. A. & Miller, G. H.: The last deglaciation of the Franz Victoria Trough, northern Barents Sea

101 Hart, J. K., Gane, F. & Watts, R. J.: Deforming bed conditions on the Dänischer Wohld Peninsula, northern Germany

115 Walden, J., Smith, J. P. & Dackombe, R. V.: A comparison of mineral magnetic, geochemical and mineralogical techniques for compositional studies of glacial diamictons

131 Petit, C., Campy, M., Chaline, J. & Bonvalot, J.: Major palaeohydrographic changes in Alpine foreland during the Pliocene–Pleistocene

145 Walkling, A. P. & Coope, G. R.: Climatic reconstructions from the Eemian/Early Weichselian transition in Central Europe based on the coleopteran record from Gröben, Germany

161 Nawrocki, J., Wójcik, A. & Bogucki, A.: The magnetic susceptibility record in the Polish and western Ukrainian loess–palaeosol sequences conditioned by palaeoclimate

171 Ham, N. R. & Attig, J. W.: Ice wastage and landscape evolution along the southern margin of the Laurentide Ice Sheet, north-central Wisconsin

187 Böcher, J. & Bennike, O.: Early Holocene insect and plant remains from Jameson Land, East Greenland

195 Poolton, N. R. J., Bøtter-Jensen, L., Wintle, A. G., Ypma, P. J., Knudsen, K. L., Mejdahl, V., Mauz, B., Christiansen, H. E., Jakobsen, J., Jørgensen, F. & Willumsen, F.: A scanning system for measuring the age-related luminescence of split sediment cores

209 Krzyszkowski, D.: Glaciotectonic deformation during the Elsterian ice-sheet advance at the northeastern margin of the Sudetic Foreland, SW Poland

227 Huddart, D. & Hambrey, M. J.: Sedimentary and tectonic development of a high-arctic, thrust-moraine complex: Comfortlessbreen, Svalbard

244 Svendsen, J. I., Elverhøi, A. & Mangerud, J.: The retreat of the Barents Sea Ice Sheet on the western Svalbard margin

257 Ahlberg, K., Almgren, E., Wright, H. E. Jr., Ito, E. & Hobbie, S.: Oxygen-isotope record of Late-Glacial climatic change in western Ireland

271 Jiang, H. & Klingberg, F.: The transition from the Younger Dryas to the Preboreal: a case study from the Kattegat, Scandinavia

283 Krzyszkowski, D., Böttger, T., Junge, F. W., Kuszell, T. & Nawrocki, J.: Ferdynandovian Interglacial climate reconstructions from pollen successions, stable-isotope composition and magnetic susceptibility

Boreas Book Reviews

144 Jönsson, P.: Climatic trends and anomalies in Europe

160 Attig, J. W.: A comprehensive review of 'Modern Glacial Environments'—this volume should be on your bookshelf!

194 Catt, J. A.: A comprehensive and scholarly new book reviewing the Quaternary of the whole of Scandinavia

268 Strand Petersen, K.: Ecological, sedimentary, and geochemical evolution of the late-glacial to postglacial Åmose lacustrine basin, Denmark

269 Krzyszkowski, D.: Glacial deposits in northeast Europe—an untapped and unexplored story
